

WIC is NOT a part of Public Charge

Public programs your child uses are NOT considered for Public Charge - children under 21 are exempt.

Medi-Cal services received for prenatal care and for 60 days postpartum are NOT considered for Public Charge.

The public charge test does not include all public benefits. ONLY CalFresh, Medi-Cal, and housing assistance (Section 8) are included.

You may not be affected by the public charge test. Speak to an attorney before withdrawing from programs you or your children need to stay healthy.
